No.667-B/32.

Station Madras, *Dated the* 21st September 1932

From (Name) V.Ramakrishna Esq., M.A., B.Sc.(Edin.), I.C.S.,
(Designation) Director of Industries,

To The Secretary to the Government of Madras,
Development Department.

Sir,

This department imported in the year 1929, two wind motors (mills) for demonstration purposes, with a view to determining, at first hand, their suitability for the economical pumping of water for irrigation of small areas from shallow wells in this Presidency. It is proposed to set up the plants at different localities in the Presidency, and record their performances in relation to the actual wind-velocities prevalent in those places.

2. At the request of M.R.Ry A.Rangânatha Mudaliar Avl., B.A., B.L., M.L.C. Hospet, I have arranged to send at departmental cost one of the plants to Hospet and to conduct

systematic performance tests with it. The erection of the plant at site is estimated to cost Rs.150/- approximately. As the trials proposed to be conducted are more or less in the nature of an experimental demonstration, Mr.Ranganatha Mudaliar requests that the cost of erection may also be arranged to be met by the department. He assures me however that he would arrange to render all facilities for carefully recording the observations regarding wind velocities discharge of pump etc He has already incurred the transport charges of the plant from the Hospet Railway station to the site of well at Hospet. As I consider that Mr.Ranganatha Mudaliar's request is reasonable, I request that Government will be pleased to accord sanction to incur an expenditure not exceeding Rs.150/- towards the setting up of the mill and dismantling of the same at the close of the demonstration.

3. The expenditure is proposed to be met out of the existing provision under "35-b, Industries - Industries B.District Engineering 4 Pumping and Boring". ~~Voted~~ -

I solicit the favour of early orders.

for Director of Industries.
